## Enrollment Expected To Reach 8500

### 'Registration Should Run Smoothly'

A projected total student enrollment of 8500 is expected by university officials for the coming term.

According to Registrar Virgil Sharpe, this represents a very conservative increase from the total enrollment last year of 8,138.

Sharpe said about a ten percent increase in freshman enrollment is expected. Last year, the freshmen totaled 1,264.

Registration is expected to run smoothly, Sharpe said. "Students in the past have in general done very well in registering."

Commenting upon the new IBM card method of registering placed in operation last year, Sharpe said it saves untold hours of clerical work.

Approximately 60 persons will be employed during registration.

Registration will be September 16-18. September 18 will be the last day that students may register. Sharpe said there will be no excuse for students to register out of turn.

Students of Jewish faith will be allowed to register later than September 16 due to a Jewish holiday falling on that date. All they have to do, Sharpe said, is come to the registrar's office and identify themselves.

For this term, students with last names beginning with A, B, C, D and E get first crack at registering. Next time, it will be U, V, W, X, Y and Z first.

Sharpe added the last day of registration will be the big rush. He emphasizes that students please register when they should. "If they do, they should experience very little delay," he said.

The breakdown of 3,632 full-time students last year:

1,264 Freshmen  
661 Sophomores  
568 Juniors  
1,069 Seniors

The big bulge in seniors is due to approximately 540 bootstrappers who register as transfer students even though most of them are seniors.

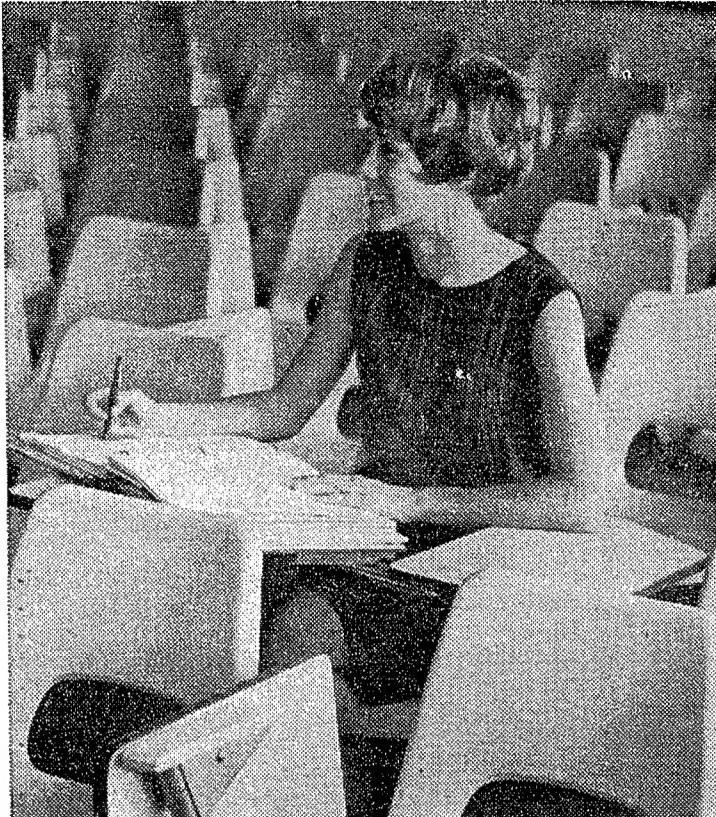

Part-time students last year totaled 4,506, with the following break-down:

838 Freshmen  
347 Sophomores  
435 Juniors  
392 Seniors  
434 Graduate Students  
2,062 Special Students

## Two Degrees Added To Graduate Studies

Two new graduate degrees have been added to the College of Graduate Studies, a Master of Science degree in sociology and a Master of Arts degree in biology.

There will also be programs offered in engineering and a Specialist in Education degree which requires 30 hours beyond the master's degree and the successful completion of a field project.

Gateway Photo.

Debbie Pelowski . . . tries new seats in the Applied Arts building.

## New Seating Will Save OU An Estimated Million Dollars

A savings of one million dollars in the next ten years may be realized by the utilization of a new type of student desk currently being tested by university officials.

In addition, an increase of 50 per cent more seating capacity may be realized with the new desks.

To date, 72 of the units have been installed in the university.

So far, only a small number of students have used the desks but with enthusiastic response. Reportedly students find it much easier to slip in and out of the new desks.

According to Physical Plant head, Clarence Lefler, 16 classrooms in the university could be economically converted to accommodate the new desk.

Lefler said these classrooms contain a total seating capacity of 1,164 seats. By using the new type of desk, 584 more spaces could be gained, or a 50.2 percent increase.

Cost of the new units is approximately \$34, with a life expectancy comparable to those types now in service.

Lefler said this type of desk may very well be the coming thing in seating design. He noted several of the major companies are experimenting with the design. Costs would be brought down by mass production of the units, Lefler added. As of now only a small number have been made for study use.

(Cont. Page 2, Col. 1)

## Fresh Must Attend

## New Students Meet Deans

All freshmen are invited and required to attend the Student Council's New Student Day at 9 a.m. on September 19th in the Field House.

Attendance is also compulsory for all new students.

University president, Milo Bail and Dean of Student Personnel, Don Pflasterer will speak to the students.

At 10 a.m., all students will meet with their deans and counsellors in the following rooms: College of Liberal Arts—Field House; College of Applied Arts—Applied Arts, room 101; College of Business Administration—Library Auditorium, Conference Center; and College of Education—Student Center Ballroom, second floor.

Following this meeting freshmen will meet with upper classmen in rooms to be designated.

At 11:15 all women students are invited to lunch at the Student Center while the male students will go to the Field House where Intramural Director, Bert Kurth and Athletic Director, Virgil Yelkin will speak.

At noon all men students are

invited to lunch at the Student Center, while at 12:30 the women will meet with Women's Recreation Association's leader and the Dean of Women, in room 101 of the Applied Arts building.

**Schedule For Orientation Talks**  
Group "A"—1:00-1:30 Ballroom, Student Center  
1:45-2:15 Conference Center Auditorium

2:30-3:00 Room 101, Applied Arts Building  
Group "B"—1:00-1:30 Conference Center Auditorium  
1:45-2:15 Room 101, Applied Arts Building

2:30-3:00 Ballroom, Student Center  
Group "C"—1:00-1:30 Room 101, Applied Arts Building  
1:45-2:15 Ballroom, Student Center

2:30-3:00 Conference Center Auditorium

After the rigors of the day all new students are invited to a Freshmen Dance in the second floor ballroom of the Student Center between 3:00 and 4:30.

## University Adds Three Programs

### New Triumvirate Increases Variety As OU Continues To Expand

Three new programs of study have been initiated for Omaha University students during the coming school year.

The technical institute, the computer center and the urban affairs institute is the triumvirate of study that will be newly offered.

#### Technical Institute

The technical institute, a segment of the engineering department, lists three fields of study which a student may enter: construction technology, drafting and designing technology and electronics technology.

Headed by E. E. Kinney, the program is a two-year, 70 semester hour curriculum with an associate degree in engineering technology its reward.

Kinney explained the program is intermediate between high school and professional engineering curricula, and emphasizes the understanding and practical application of the basic principles of engineering, mathematics and science.

The program would allow graduates to work as liaison men between engineers and craftsmen on the application of the principles rather than on the design of the product, Kinney noted.

Kinney pointed out those benefiting most from the program would be students intensely interested in a specific technological field; and those who want a technological education, but for various reasons do not wish to undertake a four or five year baccalaureate program.

The Omaha branch of the Association of General Contractors has donated \$2,000 to the new

program for each of its first two years.

#### Computer Center

The computer center, unlike the technical institute, will work in conjunction with many courses of study offered at the university.

The primary purpose of the center will be to assist undergraduate science students. However, the Computer Center Director William E. Walden said it may be used by non-science as well as for faculty and student research papers.

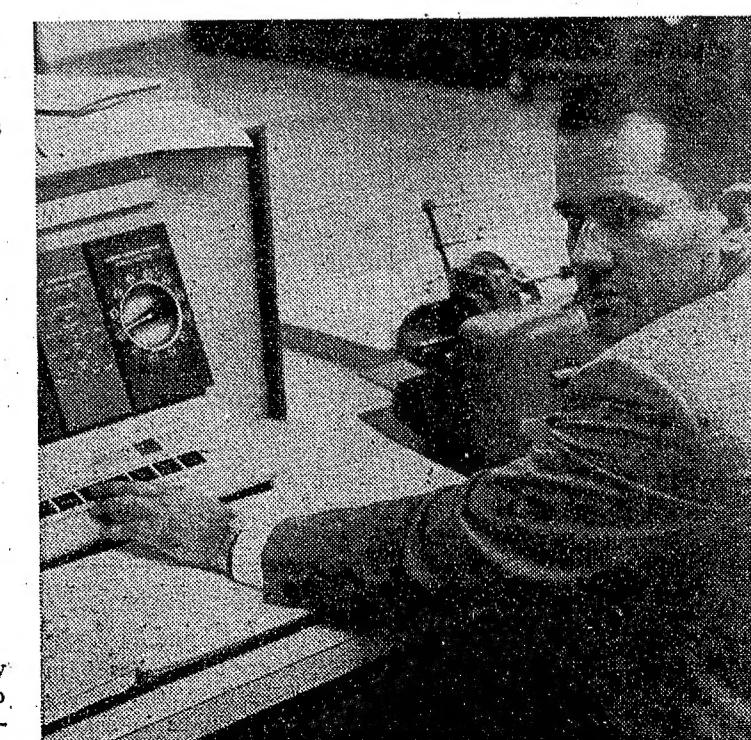

The computer itself, an IBM 1620, was installed by the university to better orientate students, of all fields, with equipment now used by many firms. Dr. Walden explained, "Many banks, insurance companies and the like use these machines more and more every day. We feel that a student must be familiar with computers."

At present Dr. Walden and Computer Room Supervisor Art Ashley are programming necessary material into the "brain" for use during the semester.

Dr. Walden added that faculty members who decide to use the computer as a part of their classes will also begin formulating "fortran" programs for use in class.

When the programming is complete, the center will be open

(Cont. Page 2, Col. 1)

## 294 Meters Added To Lots

(Cont. From Page 1)  
If the new desks work out, and they give every indication of doing so, it will be the nearest thing in years to revolutionizing classroom seating.

### Summer Sees Many Changes

Students returning to the campus this fall will find a number of changes made during the vacation months.

More than 108 projects were handled at a total cost of over \$100,000 by the Physical Plant.

The change that may have the most direct effect on students is the addition of 294 parking meters. This leaves only 100 unmetered parking spaces.

University officials say there is no plan in the immediate future to plant the remaining free area, Lot H, on the north side of the baseball diamond, with parking meters.

Paving of Lot R on the northwest corner of the campus completes the paving of all parking lots, except the free one.

Other changes instituted by the Physical Plant includes:

—Stainless steel signs designating the main campus buildings except the Administration building and the field house will enable visitors and new stu-

dents to find their way around campus easier.

—New tennis courts are in operation for the sports minded student, and open at all times.

—New lockers installed in the dressing rooms of the fieldhouse.

—A testing laboratory added to the Psychology department in the Administration building.

—A soil testing laboratory added to the engineering department.

—Widening of the sidewalk between the Administration building and the inter-campus drive by four feet, to ease pedestrian congestion.

—Fluorescent lighting added to 43 more offices and classrooms.

Students returning to campus will also find the new wing to the Applied Arts building nearly completed.

The wing has a rather unusual appearance with three sides bricked and one side in plain, red block with a white, wooden fire escape attached to it on the west.

The west wall and fire escape are merely temporary, and will be removed with the addition of another wing running north and west in an L shape to be built in the near future.

## '64 Sees Starting Of New Divisions

### Study Backgrounds Vary In Nature

(Cont. From Page 1)  
to students, who have been approved by the faculty, in psychology, sociology, business administration, engineering, economics as well as those in physics, chemistry, mathematics and biology.

\* \* \*

### Urban Affairs

The third member of the new programs initiated on campus, the Center of Urban Affairs, will attempt to become a depository of surveys taken in the city of Omaha.

The center will use these inventories, as well as any new surveys made by university students or businesses in the Omaha area, to make the city a better place to live in the future.

However, departmental heads emphasized they have no intention of trying to remake the city overnight. They do feel that through their work they will be able to ease many of the city's growing pains.

Members of the department feel that with use of the surveys deposited in the center, city officials will be aided in their jobs and it will better enable them to plan for future growth.

Director of the center Harry W. Reynolds, plans slow growth but eventually foresees building the department to an eventual course of study leading to a degree.

## Changing Classes Ends On Sept. 25

September 25 is the last day a student may either add or drop a class for this semester.

Anyone wishing to do so should first see his counselor, get a change of program and then go to the Registrar's office. Unless the University has erred, a \$5 fee will be charged.

### Parking

Parking permits are issued in the Dean of Student Personnel Office (room 240). Students must fill out an application for each car they wish to register. The parking permits sticker must be placed on the inside front windshield behind the rear view mirror. It does not excuse any driver from payment of parking meter fees.

The speed limit for vehicles on campus is 15 miles per hour. Parking meters are in operation from 7 a.m. to 10 p.m. Monday through Saturday. The cost of parking is one nickel for one hour, or one quarter for six hours.

A complete list of parking regulations and a fine schedule may be obtained in room 240 of the Administration building.

## Applegate Named Head Of Cadets

William Applegate has been chosen as the Cadet Colonel for 1964-65. He will be in charge of the 470th cadet group.

Applegate was OU's Sabre commander last year.

### The Month Ahead

September 11 — Last day for students to be admitted to OU on a full-time basis.

September 12 — Panhellenic Rush Tea for sorority rush week, 7 p.m. in the Student Center; Inter-Fraternity Rush Mixer for fraternity rush week, 7:30 p.m., SC.

September 13 — Rush Week parties for fraternities and sororities begin (through September 18).

September 14 — Registration for evening classes begins, 4:00 - 7:30 p.m.

September 15 — Registration for evening classes begins, 4:00 - 7:30 p.m.

September 16 — Day School registration begins, 8 a.m. - 4 p.m. for returning juniors, seniors and graduate students.

September 17 — Day School registration, 8 a.m. - 4 p.m., freshmen and sophomores.

September 18 — Registration for new and transfer students, 8 a.m. - 4 p.m.

September 19 — New Students Day, 9 a.m. - 4 p.m.

September 21 — Day and evening classes begin for fall semester; Inter-Graphic Arts Show opens, 7:30 p.m., SC (through October 14).

September 22 — President Milo Bail's Coffee Hour for faculty and staff, 4 p.m., SC.

September 25 — All Freshmen Dance, 9 p.m. - 12:00, SC Ballroom.

## Oleson To Teach On TV Classroom

### Program Originates From OU Studio

TV classroom will once again originate from OU's TV facilities. A three hour course entitled "Youth and Their Future," will be offered between September 12 to December 5. The program will be on Saturday mornings, 8 - 8:30 a.m. on KMTV, channel 3.

The course is especially designed for two groups of people, those taking it for credit, probably school teachers or potential school teachers who are interested in understanding the total guidance program in the school, and more specifically, how they can contribute to the guidance of youth.

Those interested in registering for the course may register Monday-Friday from 8 a.m. to 3:45 p.m. in Room 182 of the Administration building.

The total cost of the course is \$45. This includes registration fees and mailing and handling costs.

Dr. Gale Oleson, director of academic and counseling at OU, is the instructor.

## Openings Available For Musical Talent

If you play a musical instrument, or can sing, you are eligible to join the band, the orchestra or the chorus. You do not have to be a music major to join any of these groups.

The music department is planning a heavy schedule this year and is hoping to recruit many new members. Those students interested in joining should contact J. H. Malik, or J. B. Peterson.

## Lambda Chi Officers

Lambda Chi Alpha elected two officers for the coming year.

Louis D'Ercole will be treasurer and Burney Ramming will be social chairman for this fraternity.

## Observations

If this summer's political conventions are any indication of what the upcoming school year is going to be like it may be EXTREMELY difficult to get a SEAT.

\* \* \* \*

The fervor of a national political campaign can only be matched by those waged by social organizations on this campus.

\* \* \* \*

It's been said it isn't very CUNNING to argue about speakers on campus with Dr. Leland Traywick.

\* \* \* \*

The influence of bootstrappers on campus life can only be measured in time ... 0800 ... 1300 ... 2100.

Leo Meidlinger

Gateway News Editor

## Studies Program Helps Undecided

### Office Numbers Get New Look

The University Studies Program is tailor made for three types of students.

—students of ability who are undecided about a major area of study.

—students of ability who lack motivation.

—students unable to cope with regular college courses because of an academic shortcoming such as reading, speech, or writing.

In its second year, the division offers a qualified University counselor, individual counseling and specially designed courses. Associate degrees are available to students enrolled in its two year technical program.

After completing a two year program there are several alternatives available to the student. Among them are, a job, more technical training, and a transfer to one of the four year colleges.

A new system for numbering groups of offices was announced by Clarence Lefler, Buildings and Grounds Superintendent. Offices numbers for two or more offices within a single corridor will appear outside the main entrance.

The new numbers will be in clockwise order, reading from left to right as they represent the offices.

For example: a group of offices in the Applied Arts building will be numbered outside the corridor entrance thus:

138A

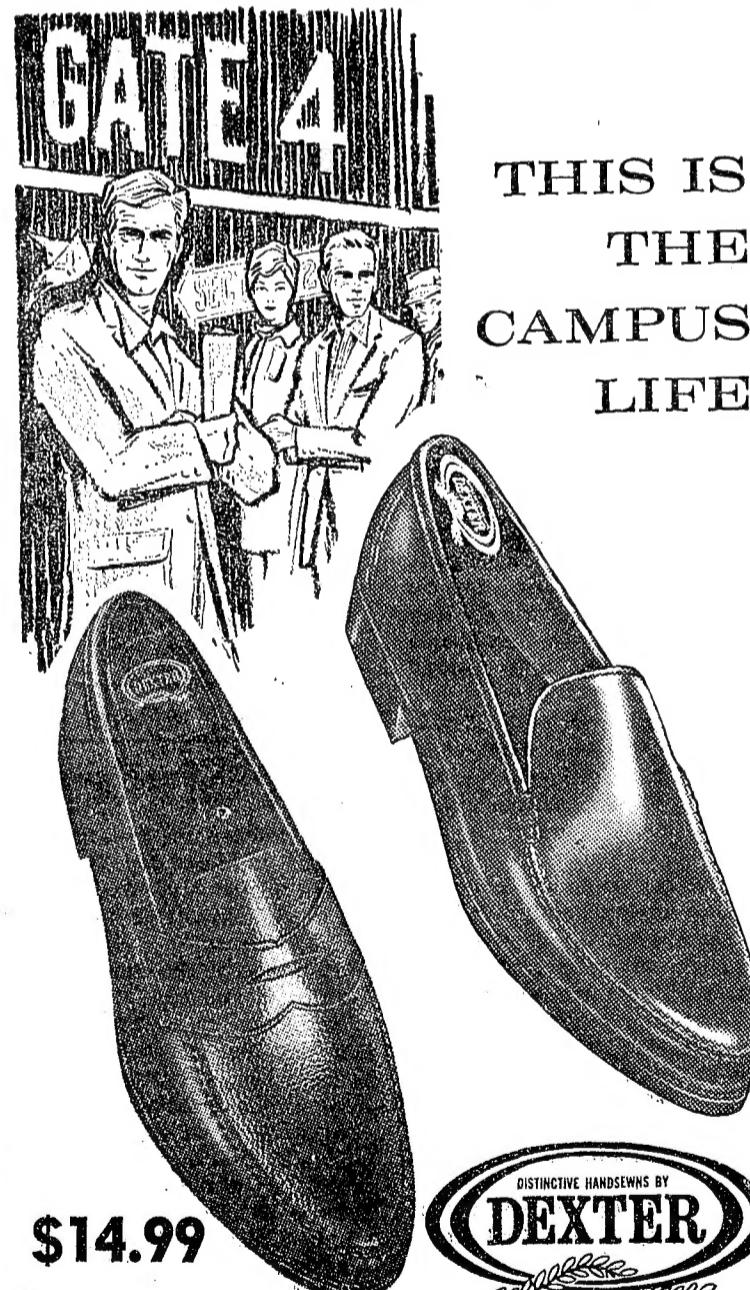

138B

138C

138D

Lefler said, "the new system will enable anyone trying to locate an office to do so at a glance."

## THIS IS THE CAMPUS LIFE

## Rush Week Is In Full Swing As Sororities Give Parties

### Prospective Pledges Get Bids By Mail

Rush Week began Saturday evening with a tea in the Student Center sponsored by the Panhellenic Council. Parties are being held nightly through Wednesday, September 16.

Four sororities are participating in the Formal Rush activities. They are Alpha Xi Delta, Chi Omega, Sigma Kappa and Zeta Tau Alpha.

Following the tea on Saturday, the rushees attended a party given by each group.

Invitations to attend the evening parties were picked up Sunday morning and two parties were given on Sunday at 2:30 and 7:30 p.m.

No party may be attended without an invitation from the sororities and more than two parties with any group is prohibited.

Planned entertainment given by the sororities is forbidden and no favors may be given or refreshments served.

Each party that a rushee accepts an invitation to must be attended or the rushee is automatically ineligible for further Rush.

Each rushee must pay a five dollar fee prior to Rush Week. This does not guarantee a bid by any sorority.

On Thursday, September 17, the rushees may indicate their preference from 8 until noon in the Student Center Organizations Room. Each girl is urged to sign three preferences.

Bids will be issued by mail on Thursday evening. If no bid is extended, the rushee will be notified.

Any girl who drops out of Rush or does not accept a bid will not be eligible for pledging for one calendar year.

Pledge ribbons will be presented to the new pledges on Friday, September 18 from 2 until 4 p.m. in the Student Center Organizations Room.

A tea will be held in the Student Center Ballroom for the new pledges during this time. Dress for Rush parties and teas include skirts and sweaters or dresses and heels.

### Nineteen Activated In Four Sororities

Alpha Xi Delta initiated Joan Berkheimer, Marilyn Miller and Marilyn Rasmussen in ceremonies August 26 at the home of Sandi Croft.

Billie Poulsen's home was the scene of the initiation of six Chi Omega pledges. They are Susie Dean, Val Ferber, Meridee Fokken, Diane Meisinger, Debbie Pelowski and Carol Shelton.

Janie Carter and Patty Cosgrove were initiated by Sigma Kappa at the First Christian Church. The ceremonies were followed by a dinner for the members.

Seven pledges were initiated by Zeta Tau Alpha at their annual retreat held at the chapter house in Lincoln, Neb.

The new actives are Joan Edwards, Irene Jacobs, Linda Johnson, Sigrid Kerst, Roberta Pechous, Evonne Slegle and Lydia White. A banquet was held in their honor.

Pauline Williams, Kathy Vail, Ruth Helligso and Patti Matson get together to discuss Rush Activities. (Story at Left)

### Frats Initiate 9 Over Summer

Four social fraternities at OU have initiated nine second semester pledges during the summer.

Lambda Chi Alpha initiated Mark Otoupal and Brian Stemermaann.

Pi Kappa Alpha initiated Mike Baylor and Gary Westphalen.

Tau Kappa Epsilon initiated Kurt Krause, Greg Muffitt and Mike Thomas.

Theta Chi initiated Duane Anderson and Ken Calvert.

Sigma Phi Epsilon won't be eligible to initiate their pledges until two weeks after school begins.

The Administration Building was opened for classes in 1938.

### Fraternities Give Smoker

The Formal Rush Week for the five fraternities on campus is now in progress. It began last evening with the Interfraternity Smoker and will close Monday, Sept. 21.

The national fraternities participating in Rush are Lambda Chi Alpha, Pi Kappa Alpha, Sigma Phi Epsilon, Tau Kappa Epsilon and Theta Chi.

To be eligible for pledging, a male student must be registered for at least 12 credit hours in the University.

Each rushee must attend five fraternity parties held from 7:30 to 11 p.m. on Sept. 14 through 21. He must register at each party. If he is unable to attend any one of the parties, he must present a written excuse to the Interfraternity

Council explaining his absence.

On Saturday evening, each fraternity will hold a preference party open to all rushees. The rushee may attend one or all of these preference parties.

Silent day begins Saturday at midnight and lasts until five p.m. Sunday. There is to be no conversation between fraternity members and rushees.

All prospective pledges must sign preference cards Sunday, Sept. 20 between one and four p.m. in the Dean of Student Personnel Office if they desire membership in a fraternity. All cards must be turned in before four p.m. or they will not be considered.

Rushees will be notified by five p.m. Monday, Sept. 21, if they will be pledged.

# Caniglia's 'New Breed' Readies For Bengals

**From  
The  
Bushes**

## Billy's Toe . . .

The curtain goes up on the 1964 football season this Saturday at two o'clock. That's Mountain Standard Time for you folks.

The place? None other than Pocatello, Idaho. That's a small town in southern Idaho at the base of the Rockies. Last time an Omaha U. football team played there, the Indians were sent home on the short end of a 39-6 score. That was in 1959. However, most fans would like to remember the 1957 season. The Bengals had not been beaten on their home field, the Spud Bowl, in about ten years.

It was Homecoming and the Bengals were unbeaten and headed for post season play. OU was 6-1-1 with an upset loss to Morningside as the only blemish.

All-American Billy Englehardt kicked a first quarter field goal in the rain to put Omaha on top at the half, 3-0. The Indians held on and scored again in the fourth quarter and won it 9-0.

Lloyd Cardwell and his troops made it a miserable afternoon for Idaho State fans. Fine way to start 1964, too.

## Marlin The Key?

A lot of the fortunes of the 1964 team may depend on the flying feet of sophomore quarterback Marlin Briscoe. Briscoe amazes you with his speed and deceptiveness and the ability to cut a thousand different ways when cornered. Coaches say he throws the running pass with the best. He's quicker than Carl Meyers but his ability to call the "right" play and his coolness under fire will be tested Saturday by a big, tough Idaho State line. For sheer running ability, he could develop into the best OU signal caller yet.

## Out On The Proverbial Limb . . .

Part of the fun of being a sportswriter is forecasting the outcome of a game or a whole season. I already feel the noose tightening around my neck after being one of only 12 writers to pick Nebraska for a repeat Big 8 title this year in the annual poll conducted by Kansas U's Don Pierce. I will not risk the wrath of the Indian coaches by making a prediction on a season record but I sure pick 'em for a third CIC title. A rough non conference schedule makes another 7 game winning season seem unlikely but there are so many question marks about this young team that it is difficult to predict. I do look for Northern Illinois as the best game of the year.

## Bombs 'Away . . .

But maybe not so much this year as in the past against OU. Teams like Northern Illinois have been setting records in the air against Omaha for the last two years as a result of a leaky pass defense. Indian cornermen and safeties appeared hesitant to knock a receiver down until he had the ball in his mitts. Others seemed content to let them have the short ones and stay back safely to guard against the bomb.

But this year, with Briscoe in the defensive backfield, teams may hesitate to throw the flat pass as much.

Marlin picked off a George Bork aerial last year and took it in for OU's only score against the Huskies. He played his man aggressively and got in front of him.

The little sophomore is probably the best defensive back, despite his lack of size and experience, on the squad this year. He's not afraid to tackle and takes the chance when he has to against a bigger man.

With a defensive umbrella of Briscoe, speedy little Doug Butler, Don Crum (if he learns to tackle) and maybe Joe Benson or another quick back, opponents should think twice about trying Bork's antics of the last two years when he set all kinds of records against the Indians.

## View From The Boxes . . .

Officials still decline to shift the team bench to the East side of University Stadium. Coach Al Caniglia has repeated time and again that it would be better over there because there would be no interference from photographers and other people who have to do their work from the sidelines. There is a problem with the sun being in the eyes of the coaches and players if they are on the West but it's that way at Lincoln and Bob Devaney certainly doesn't seem to mind. Those box seat patrons at OU deserve a better shake.

Gateway Sports Editor

## Speedy, Young O.U. Team Faces Veteran Idaho State Crew At Pocatello Saturday

The "new look" marches onto the turf at Idaho State University's Spud Bowl Saturday at two for what the experts are calling a very difficult game to predict.

Pre-season thinking had Omaha U. rated a so-so outfit with a lot of promising youngsters and an untried quarterback. However, an influx of predicted enthusiasm and competition among the "youngsters" and 18 returning lettermen has led the way to a new type of outlook on the 1964 OU Indians.

Some sources are saying that this team is potentially as good or better than last year's CIC titleists. The team size is good and the offensive line is speedy and mobile.

### Bengals Tough

Idaho State is operating this year with a two deep lineup of vets at every position. Quarterback Billy Shaw is back to lead the attack plus the rough defensive line.

OU whopped the Bengals, 19-6, last year at Omaha in a game that saw the Westerners lead, 6-0, at the half, only to see the Indians score twice in the third quarter to snatch the win.

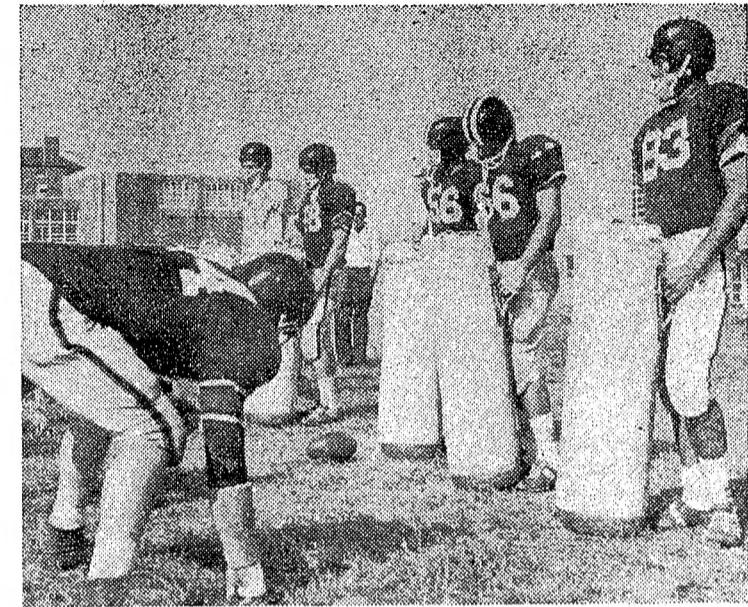

This game has to be OU's toughest opener in many years. It may be a good thing, however. A win over the veteran Bengals could spur Al Caniglia's kids to unexpected heights.

OU will have to make a minimum of mistakes, a characteristic of a young club, if it is to win at Pocatello.

### First Unit Big

Omaha's starters actually will have a veteran flavor. All but halfback Don Moray (a '63 squadman) and tackle Bill Jansen (a transfer from Cincinnati U.) are letterman.

Quarterback Marlin Briscoe, an exciting prospect with great

OU gridders drill for Bengals . . .

Gateway Photo

speed and a fine arm, lettered last year on defense and did not play much behind the veteran Carl Meyers.

All-CIC halfback Gerald Allen, the number two rusher in '63, returns to his left half spot. The fullback is versatile Tom Wolff.

Wolff lettered at end in 1962 and at guard last Fall. He was a high school fullback and coaches say his adaption to the position this year has been satisfactory. He's big (212) and fast (22.0) in the 220.

### End Situation Good

Omaha's ends are experienced and good. Terry Edwards, Jim Jones, Jim Norris and Mike DiBiase leave little to choose between them. All are capable receivers with good size. Jones is the biggest at 252 and Edwards the smallest at 190.

## Intramurals Offer All The Chance To Play

The University of Omaha offers everyone a chance to participate in the sport of his choice. One of the most extensive and well handled intramural programs in the country make this possible.

Competition is offered in track, football, basketball, bowling and wrestling. Last year a team picked from the intramural bowling league represented Omaha in the NAIA bowling tournament.

Teams are entered from all Greek organizations plus any other group of individuals willing to spend the time and energy to organize a team for competition.

Persons interested should see Mr. Bert Kurth, the intramurals director, in his office at the Student Center, room 250. Individuals interested in bowling and football are urged to see him as soon as possible so that schedules may be drawn up and the fall program started.
